

Diagnosis:

Arrows point at:

a. Epithelioid granuloma
b. Malignant deposits
c. Follicular lymphoma
d. Non epithelioid granuloma

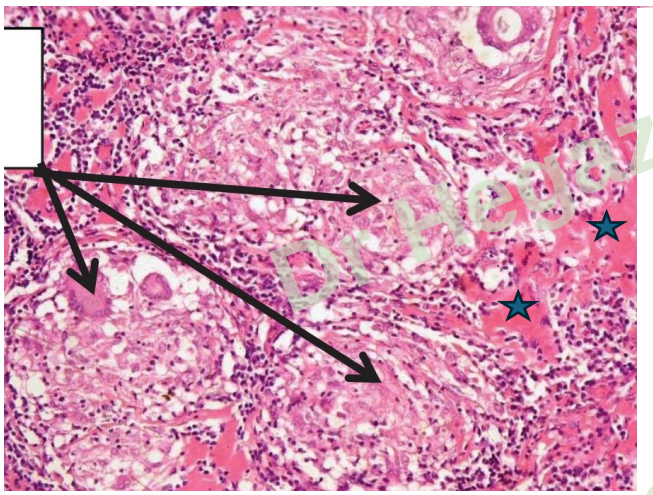

Diagnosis:

Red Arrow point at:

e. Caseating Epithelioid granuloma
a. Non caseating epithelioid granuloma
b. Malignant deposits
c. Follicular lymphoma

Cell pointed with black arrow:

a. Neutrophil
b. Eosinophil
c. RS cells
d. Giant cells

Diagnosis:

Arrow point at:

a. Caseating Epithelioid granuloma
b. Non caseating epithelioid granuloma
c. Malignant deposits
d. Follicular lymphoma

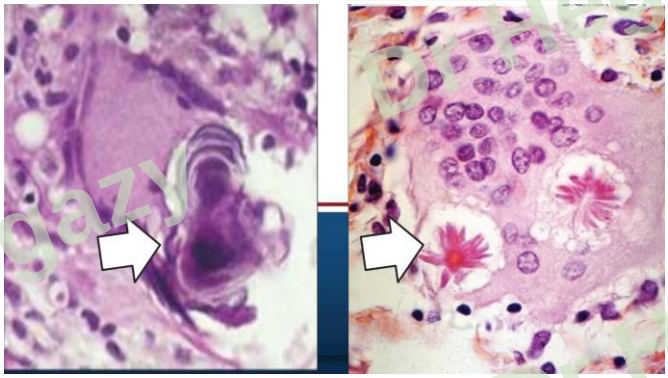

stars areas represent:

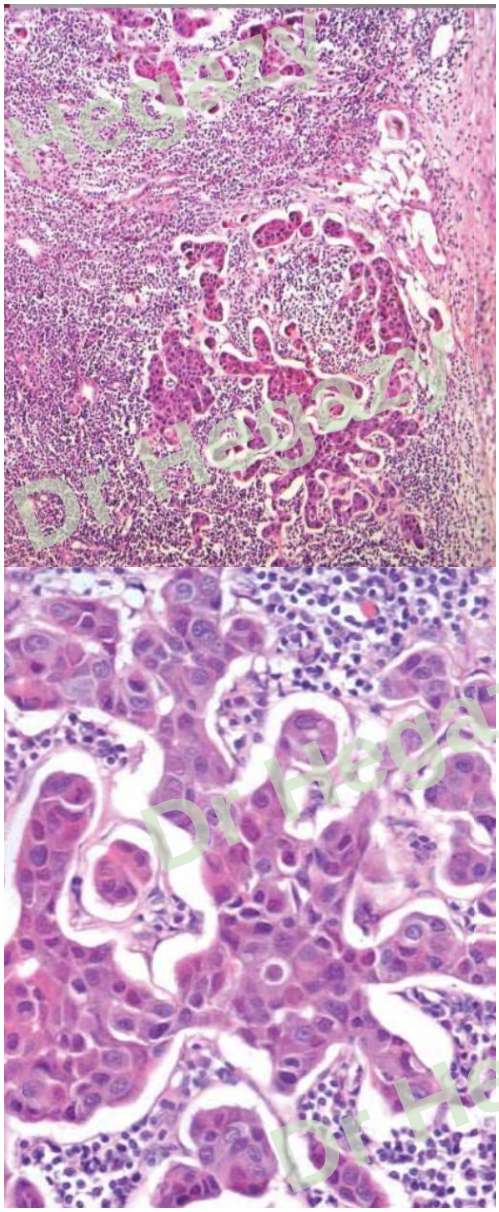

a. Fibrosis
b. Hyalinosis
c. Caseation
d. Shouman bodies

Dr Hegazy

Name:

Name:

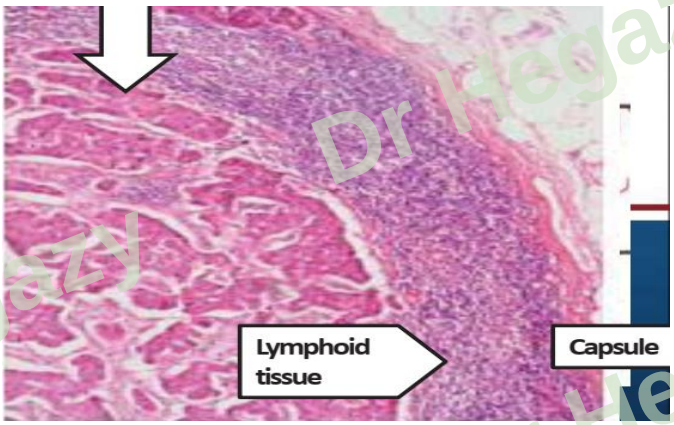

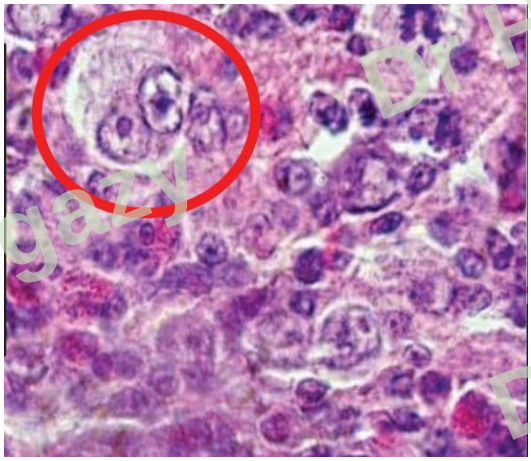

**Diagnosis:**

**Source of cells of the lesion is mostly:**

a. **Sarcoma**
b. **Lymphoma**
c. **Leukemia**
d. **Carcinoma**

Dr Hegazy

Diagnosis:

Cells in red circle is:

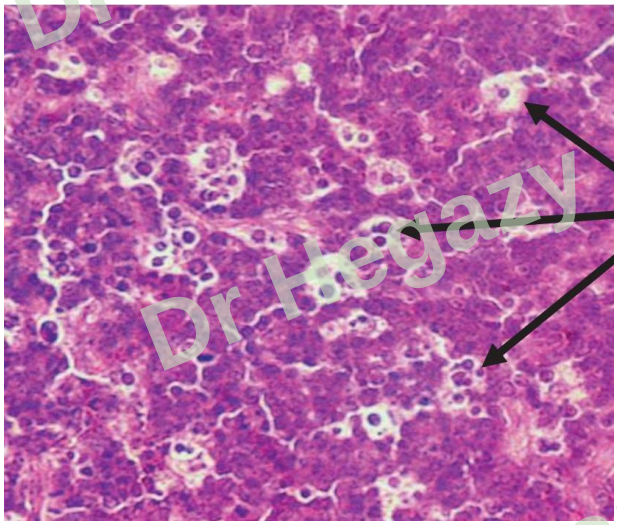

a. Neutrophil
b. Eosinophil
c. RS cells
d. Giant cells

Can be demonstrated immunohistochemically by:

a. CD 15 -CD 30
b. CD 3
c. CD8
d. CD59

Cells in the background don't include:

a. Neutrophil
b. Eosinophil
c. Lymphocytes
d. Plasma cells
e. Macrophage
f. basophil

Diagnosis:

Black arrows point at:

a. Malignant cells
b. Tangible bodies
c. RS cells
d. Giant cells

Dr Hegazy

**Diagnosis:**

**Diagnosis:**

**Diagnosis:**

**Lymph nodes are:**

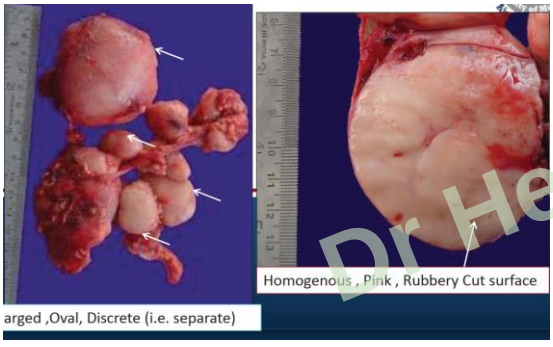

a. **Descrete**
b. **Matted**
c. **Calcified**
d. **hemorrhagic**

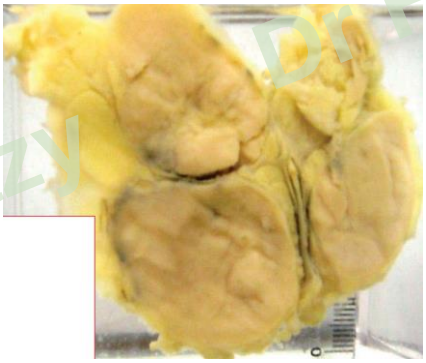

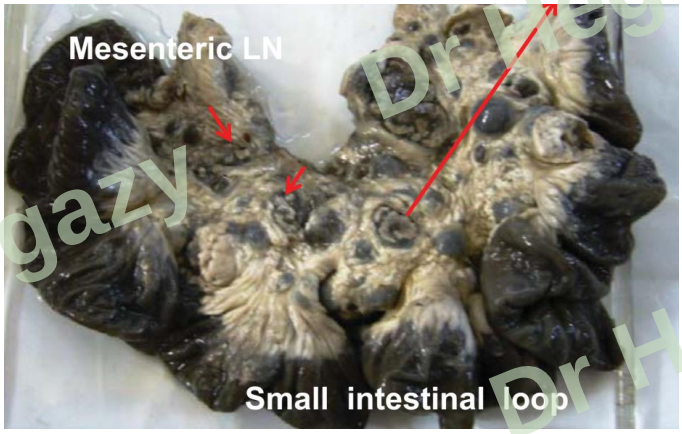

**Diagnosis:**

**Lymph nodes are:**

a. **Descrete**
b. **Matted**
c. **Calcified**
d. **hemorrhagic**

**Diagnosis:**

**Lymph nodes are not :**

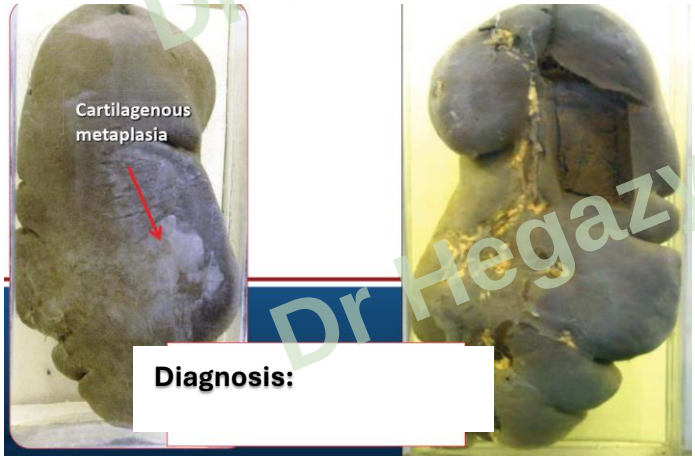

a. Descrete
b. Matted
c. Calcified
d. Caseating

**Diagnosis:**

**Lesions are surrounded by:**

a. Zone of congestion / Hyperemia
b. Zone of caseation
c. Fattychange
d. Cartilaginous metaplasia

**Diagnosis:**

**Red arrow point at:**

a. Zone of congestion / Hyperemia
b. Zone of caseation
c. Fattychange
d. Cartilaginous metaplasia

Dr Hegazy

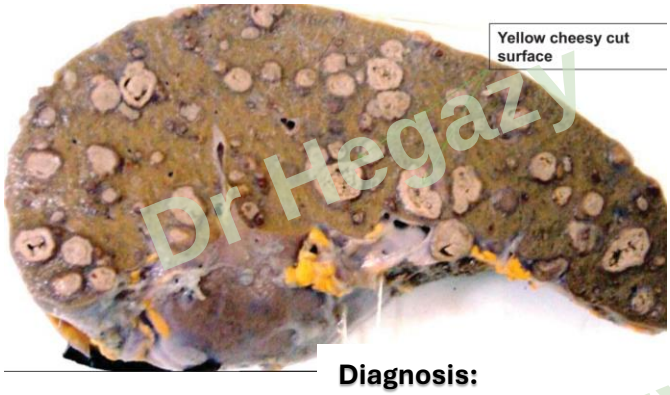

**Diagnosis:**

**spread of the lesion to this organ occurred through:**

**Blood**

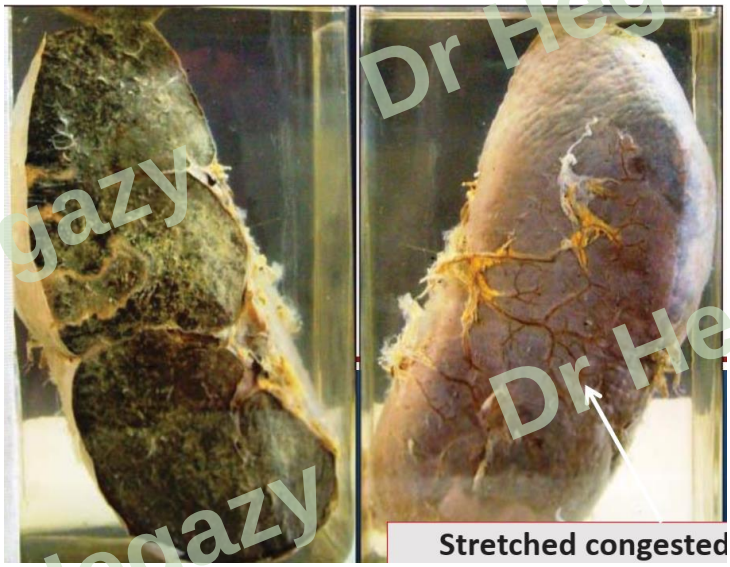

**Diagnosis:**

**Diagnosis:**

Dr Hegazy

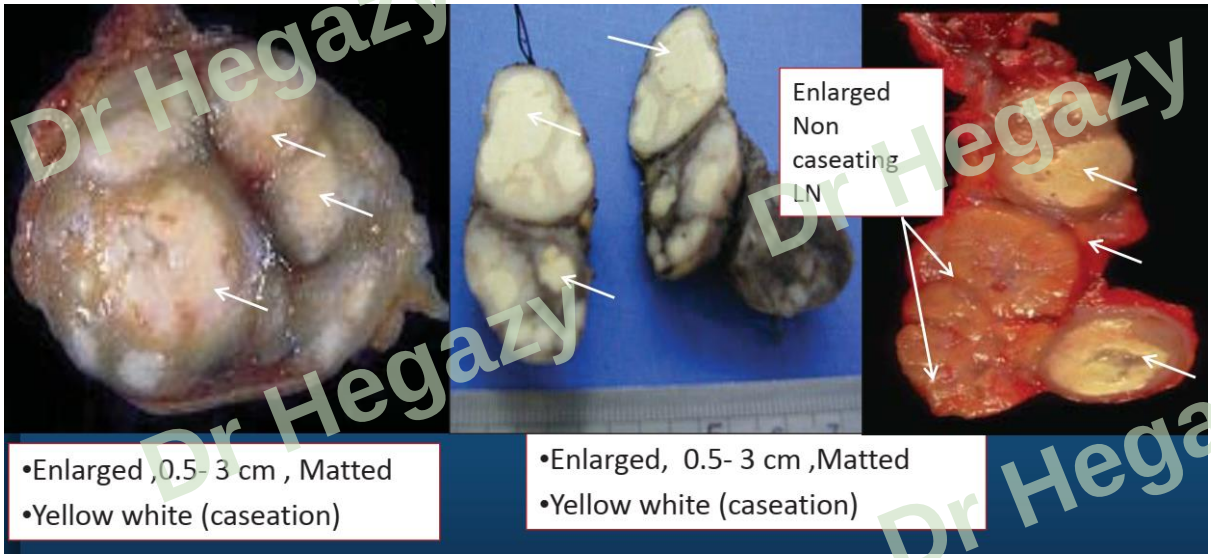

**Diagnosis:**

**White wedge shaped areas:**

**Multiple infarctions**

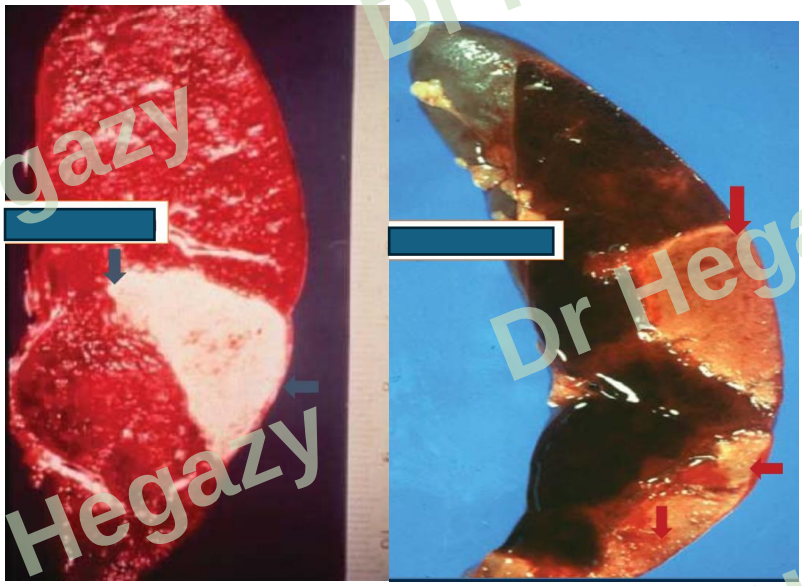

**Caused by:**

**Leukemic thrombi**

**Diagnosis:**

Dr Hegazy
